John wakes up in a future world, stranger to him, but also remotely familiar. Little by little, he will become aware of all the possible changes that might happen: a drastic climate alteration, a great social rearrangement and some unexpected global leaders, for example. These surrounding transformations include new friends and two unknown women in the present, with whom he will interact to know more about his future.

**Jose M<sup>a</sup> Agusti Moreno** was born in Barcelona. He spent his childhood in Tordera. At the age of 19 he moved to Barcelona, where he finished his studies and started to work. He loves reading, above all science-fiction books. He also likes staying up to date on scientific matters.
